SPARKLE REDUX

How can bedazzled jeans look so cool? Step one: Choose grey denim – it's less obvious and more chic. Step two: Add a simple, solid-coloured knit – don't get fancy with bright tones or a pattern. Step three: Keep accessories pared down to supporting roles. The jeans are the star attraction, so let 'em shine!

BETTER BOYFRIENDS

Get ready to fall head over heels. The newest take on boyfriend jeans will win you over, thanks to a slightly tapered shape that respects a woman's curves while still being plenty relaxed. And just because they're beat up doesn't mean you can't wear them with the most beautiful silk blouse around.
